Our family at Nice Entertainment is thankful for your interest in our company and product. For nearly a decade, we have been providing exceptional service to hundreds of couples as they galvanize their commitment to each other. It's that energy that drives us in our efforts and keeps us excited to bring the best product we can to each and every event we are a part of.

I started in this business in 2007 after my wedding DJ, well, didn't live up to expectations. I saw an area within the wedding industry that needed some help and decided to take action. At Nice Entertainment, we strive to bring the party to your event, whether it's a wedding reception or an office party, without being "cheesy" or selfish. In fact, that is our main priority: to ensure your event is about you and not about us.

A large part of our process, and what sets us apart, happens before the wedding. After initial contact we meet with you to discuss what your expectations are for the event, a lot of times over coffee. Through this process we establish a personal connection with you, building trust while better understanding how you envision the event and our role in it. Taking the guesswork out of who and what will show up on the day of the event makes the planning process less stressful.

During our tenure, we have evolved with the industry and its needs. Our services have now grown to include videography, photo booths and an option for a live band. We believe that having a well-rounded product suite is essential in providing the best experience for our customers and the response has been phenomenal.

We cannot promise to be the "cheapest" entertainment company in town, but we can promise this: throughout the entire process, you can expect a professional, engaging, and welcoming experience that will culminate in a fun, memorable event.

Sincerely,

Hans Daniels

★★★★★ Nice Entertainment was the best choice for our wedding. They were so knowledgeable, friendly, and really made us feel like they were involved from the beginning. We are thrilled we went with them, and adding in the photo booth was also a big hit. We'd recommend them to anyone we know.
